

Tomorrowland Advocacy Speech

I want to take you all on a journey into a world unlike any other. (PAUSE) A world that's full of vibrant colors, champagne showers and music that will have you dancing uncontrollably. This place is something you would have only imagined in your wildest dreams, a fairytale incomparable to any other... (PAUSE) this is Tomorrowland.

Happening only once a year, this legendary festival brings 185 thousand visitors from around the globe to their final destination in Boom, Belgium. Once your feet have touched the grounds and entered this magical world, you will never want to leave.

Among Belgium's beautiful lakes, hills and fields, about 15 stages are set up with 400 DJs spinning throughout the three days. The decorations throughout the festival are over the top and are nothing less than the best. Water features, massive structures and costumed workers help tie the incredibly dynamic festival together.

Pitch a tent and spend the night in Dreamville, eat and drink with people from more than 35 countries and ride the free fairground rides. (PAUSE) It is guaranteed you will never run out of things to do.

(WITH GREAT EMPHASIS) This jaw-dropping, (PAUSE) totally mental (PAUSE) three-day festival features the greatest DJs from around the world, including David Guetta, Dimitri Vegas and Like Mike, Hardwell, Avicii, Steve Aoki... okay you get the picture. These artists alone will have you mesmerized and throwing your hands in the air to their upbeat tracks throughout the entire day.

Not only are the beats captivating, but also the entire environment will send your senses into a magical bliss. Together what you see and hear is unlike anything you have experienced before. During the day bubbles dance in the air and helicopters drop confetti and glitter above the main stage. (PAUSE) At night, bursts of fire, smoke and colorful lasers overtake the black sky. People dance, build human pyramids and rep their national flags during each show, letting loose and having a great time.

You will have the time of your life at Tomorrowland, celebrating life in a fantasy world, raving to the world's greatest DJs and being among thousands of people from around the globe. If I haven't convinced you to check out this festival already, then you'll have to let Tomorrowland's Aftermovie bring you on a ridiculously, unreal tour. "Yesterday is history, today is a gift, and tomorrow is a mystery".
